Profile

Frontend-focused MERN Developer with strong skills in React.js, JavaScript, and Tailwind CSS, currently interning at Boolmind where I build responsive, user-friendly UIs and work on live production projects. Experienced with React Hooks, Context API, Redux Toolkit, and REST API integration. I also have basic MERN stack experience using Node.js, Express.js, and MongoDB to build simple backends with CRUD APIs, JWT authentication, and user management. Passionate about AI-powered web apps, clean code, and creating smooth user experiences.

Skills

Frontend : React.js, React Hooks, Context API, Redux Toolkit, Tailwind, Responsive Web Design

Backend: Node.js, Express.js, MongoDB (basic Schema & CRUD), RESTful API development, JWT, CORS

Work Experience

Front End Intern *Boolmind*

July 2025 - Present

- Built and maintained live React.js applications, developing scalable, component-driven UIs with Tailwind CSS.
- Used React Hooks and Context API to manage global state and data flow across the app.
- Integrated RESTful APIs to fetch and update dynamic data, improving UX with reusable, optimized components.
- Collaborated with senior developers on production projects using Git/GitHub, while actively learning backend practices in Node.js, Express.js, and MongoDB (CRUD APIs, authentication, basic API design).

Front-End Web Developer (Trainee) *Boolmind*

Jan 2025 - Jun 2025

- Completed hands-on training in JavaScript, Tailwind CSS, and React.js with a focus on practical projects.
- Built projects such as a Quiz App, To-Do List, Weather App, and Portfolio using React Hooks and modern JavaScript.
- Practiced debugging and performance checks using Chrome DevTools.

Education

BS Computer Science - 3.41

08/2020 - 09/2024

GCUF

FSc Pre-Engineering

06/2018 - 07/2020

Islamia Degree College, Narowal

Team & Live Projects

Vendoralia – Fiverr clone [🔗](#)

Contributed to the core development of Vendoralia, a Fiverr-like freelance marketplace, enhancing frontend features.

DonaText – Donation Platform [🔗](#)

Build parts of the UI and core frontend logic, focusing on clarity and ease of use. Integrated frontend with backend APIs.

Personal Projects (Mern & Ai Based)

AivraSol – Tech Solutions Website with AI Assistant [🔗](#)

MERN-based tech solutions company website with an integrated AI assistant and a fully responsive UI.

SEOboostPro – AI-Based SEO Audit Platform

AI-powered MERN application that audits website SEO and displays scores and suggestions in interactive dashboards.

PreDoctorAI – B2B Pre-Doctor Assessment SaaS

AI-driven MERN SaaS for pre-doctor patient assessments with multi-step forms and backend APIs for users and B2B clients.
